1:00 – 4:30 p.m.

Havenwoods State Forest Environmental Awareness Center

6141 N. Hopkins St., Milwaukee, WI 53209

Free and open to the public: enjoy refreshments and a raffle

Native by Design: Native Plant Replacements for Exotic Invasives With John Mariani, Landscape Architect

Using indigenous plants in aesthetically-pleasing yet functional design and highlighting the plants that are the best substitutes for non-natives will be the focus.

My unique design approach combines a richer outdoor experience including locally sourced materials and native plants that attract song birds, butterflies, pollinators, etc, back on to the land, initiating environmentally-responsible landscapes as enduring legacies that will stand the test of time.

Award-winning Landscape Architect and owner of Landserve, LLC. www.johnmariansi.com
